 Kase UK, Vanguard UK and fotoVUE fully comply with GDPR rules. *All prize values are based on full retail prices including delivery.
 For full terms and conditions please email either enquiry@kasefilters.com or marketing@vanguardworld.co.uk

Kase®

Kase can be found on stand C73

Kase are manufacturers of optical filters and accessories for photographers and videographers. Our Wolverine Series of filters is made from toughened pro glass and the filters have scratch-resistant, water and dust-repelling properties. They also have virtually no colour cast, and no degrading of image quality. Our Wolverine glass and our holder systems are available in both 100mm and 150mm varieties. A Kase Wolverine filter is not only extra tough, its optical qualities are also first class. You get extra peace of mind and unbelievable clarity. Its special Nano Coatings make it a joy to use in the wild, giving it both anti-reflective properties and making it easy to clean: no more smudging from water and sea spray. Combine it with our ingenious K8 100mm holder system with magnetic CPL for the perfect partnership. #Capture with confidence

VANGUARD

Vanguard can be found on stand F61

Vanguard has been designing, manufacturing and selling high-quality, feature-packed, multi award-winning tripods, camera bags, waterproof cases and binoculars since 1986. This includes 12 TIPA awards, including Best Tripod for 2017 and 2018 with the versatile Alta Pro 2+ range and the Red Dot Design award for the bestselling Alta Sky 51D. With a comprehensive range for DSLR users, Vanguard is launching a wide range of products for the growing numbers of mirrorless kit users at The Photography Show 2019. These are based on stylish designs with high-quality materials, without compromising on the functionality and protection you'd expect to keep your valuable kits safe. So before you buy, don't forget to check out what's available from Vanguard on stand F61 in the centre of the show and #MakeUpYourOwnMind

fotoVUE

outdoor photography

fotoVUE works with the best landscape and outdoor photographers to produce and publish high-quality photo location guidebooks. As well as guiding you to the best places to take photographs in an area, our guidebooks are full of inspirational photography and give technical advice on how to take the best photographs. Make sure you check out the website for more info.
